## INTERNATIONAL SEARCH REPORT

International Application No PCT/US2004/029541

A. CLASSIFICATION OF SUBJECT MATTER IPC 7 C12N15/82 C12N9/04

A01H5/00

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols) I PC  $\,\,7\,$  C12N  $\,\,$  A01H

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the International search (name of data base and, where practical, search terms used)

EPO-Internal, WPI Data, PAJ, EMBASE, Sequence Search, EMBL, BIOSIS

	C. DOCUMENTS CONSIDERED TO BE RELEVANT			
Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.		
Х	WO 03/031622 A (AGRICULTURE VICTORIA SERV PTY; EMMERLING MICHAEL (AU); ONG ENG KOK (A) 17 April 2003 (2003-04-17) the whole document SEQ ID NO: 168 & 169	1-21		
x	WO 02/101023 A (DU PONT; ODELL JOAN T (US); YU XIAODAN (US)) 19 December 2002 (2002-12-19) the whole document SEQ ID NO: 11 & 12	1-10		
	-/			

X Further documents are listed in the continuation of box C.	X Patent family members are listed in annex.	
Special categories of cited documents:  'A" document defining the general state of the art which is not considered to be of particular relevance  "E" earlier document but published on or after the international filing date  "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)  "O" document referring to an oral disclosure, use, exhibition or other means  "P" document published prior to the international filing date but later than the priority date claimed	"I later document published after the international filing date or priority date and not in conflict with the explication but cited to understand the principle or theory underlying the invention  "I document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone involve an inventive step when the document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.  "8" document member of the same patent family	
Date of the actual completion of the international search	Date of mailing of the international search report	
20 December 2004	0 1 04 2005

## INTERNATIONAL SEARCH REPORT

International application No. PCT/US2004/029541

Box II Ob	servations where certain claims were found unsearchable (Continuation of item 2 of first sheet)
This Internati	ional Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
1. Clai	ims Nos.: ause they relate to subject matter not required to be searched by this Authority, namely:
bec	ims Nos.: ause they relate to parts of the International Application that do not comply with the prescribed requirements to such extent that no me aningful International Search can be carried out, specifically:
3. Clai	ims Nos.: ause they are de pendent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box III Obs	servations where unity of invention is lacking (Continuation of item 3 of first sheet)
This Internation	onal Searching Authority found multiple inventions in this international application, as follows:
se	e additional sheet
1. As a	all required additional search fees were timely paid by the applicant, this international Search Report covers all rchable claims.
2. As a of ar	all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment ny additional fee .
3. As o	only some of the required additional search fees were timety paid by the applicant, this International Search Report ers only those claims for which fees were paid, specifically claims Nos.:
restr	required additional search fees were timely paid by the applicant. Consequently, this International Search Report is ricted to the invention first mentioned in the claims; it is covered by claims Nos.:  21 (partially)
Remark on P	Protest  The additional search fees were accompanied by the applicant's protest.  No protest accompanied the payment of additional search fees.

## FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

Inventions 1 to 6: claims 1 to 21, all partially

an isolated polynucleotide encoding a polypeptide having dihydroflavonol-4-reductase activity, the polypeptide encoded by said polynucleotide, plants transformed with said polynucleotide, uses thereof, wherein invention 1 is represented by SEQ ID NO: 3 & 4, wherein invention 2 is represented by SEQ ID NO: 5 & 6, wherein invention 3 is represented by SEQ ID NO: 7 & 8, wherein invention 4 is represented by SEQ ID NO: 11 & 12, wherein invention 5 is represented by SEQ ID NO: 13 & 14, and wherein invention 6 is represented by SEQ ID NO: 15 & 16
